S.T.A.R. AWARD

STELLAR TRACKING ASSIGNMENT REGISTER

"Dwell on the beauty of life. Watch the stars, and see yourself running with them." — Marcus Aurelius

2017

A. PURPOSE

The Stellar Tracking Assignment Register (S.T.A.R. AWARD) is designed to uniquely honor any Companion, Brother or general member of the community which a Grand, Constituent Chapter, or individual Royal Arch Mason may determine deserving, but for which another certificate, award, or medal may not be fitting or otherwise require additional approval beyond the immediate authority of the presenter.

In short, the S.T.A.R. AWARD is intended to acknowledge the reflective qualities of principled leadership, faithful service and/or loyal dedication to Capitular Masonry, the Craft in general or the community at-large that shine and light the way for others to follow their own star.

B. ASSIGNMENT

The presenter may specifically select a single, uniquely-assigned star within a host of constellations viewable from the Northern or Southern Hemisphere. Information would generally include the star system and catalogue designations; ascension and declination; spectral class; visual and absolute magnitudes, and light years distance from earth. Every star assignment shall be unique in the Stellar Tracking Assignment Register.

C. DEVELOPMENT

Plaques may be designed separately by the presenter, or may be selected from a sample of readily available formats. Statements of recognition should be prepared by the presenter, however, assistance with developing appropriate phraseology can be made available at little or no extra expense.

Special graphics must usually be provided when integrating certain exclusive images such as a Grand or Constituent Chapter logo. A repertoire of Masonic and related images may be selected from the available GGCRAMI website library at no charge, or procured from other online sources as necessary. Additional distinctive images may also be developed at the request of the presenter such as a constellation silhouette.

Development is primarily restricted to the imagination of the presenter, however phraseology and graphics are essentially limited to selection of plaque and size of font. Remember, in the case of presentation – LESS will often prove MORE in terms of beauty and clarity.

D. ORDER FORM

Cost and preparation time is correlative to the amount of engraving, preparation of artwork, selection of plaque style, and final proof acceptance of the award. In most instances, please allow 4 – 6 weeks to develop and receive the S.T.A.R. AWARD. To best facilitate production of your S.T.A.R. AWARD, please complete the Development and Estimate Form to receive a quote and delivery time.

S.T.A.R. AWARD
Stellar Tracking Assignment Register
For true and faithful service to Royal Arch Masonry,
we proudly dedicate the star Tau Orionis
Ascension: 05h 17m 36.40s
Declination: −06° 50' 39.8"
constellation of Orion in the name of
Louis E. Bartrand
May all who look into the firmament
of heaven to set their own course
remember your service and
contemplate the glory of God.
